ORTHOTIC & PROSTHETIC SOLUTIONS
Nationwide and Close To Home
You redefine possible. We help turn your possible into reality.

Determination meets compassion. It began on a battlefield, 150 years ago, when James Edward Hanger became the first amputee of the American Civil War. With a personal goal of renewed mobility combined with a compassionate heart, he locked himself in his bedroom, only to emerge months later walking on the first-ever “Hanger Limb.” Whittled from barrel staves, his determination and unyielding resolve to walk again brought about a revolutionizing prosthetic solution.

Today, with the ever-changing healthcare industry, there is an even greater need for comprehensive, unwavering solutions to challenging physical conditions. Answering the call, Hanger Prosthetics and Orthotics, now named Hanger Clinic, is transforming the patient’s experience to provide a comprehensive suite of integrated rehabilitative solutions to help turn hopes and dreams into realities.

Following in the footsteps of our founder, the Hanger Clinic team is steadfast in providing a full continuum of care. We are breaking down barriers, helping make dreams a reality, and empowering human potential.

For our more than 1,300 + certified clinicians, the move to Hanger Clinic isn’t simply a name change. It is a commitment to delivering unsurpassed customer satisfaction to you.

No matter which of the more than 740 + Hanger Clinic locations that you choose, you can rest assured that you will be met with the same dedication to superior care and service.

At Hanger Clinic, our clinicians receive ongoing training and education in the most current innovations. Our broad, collaborative capability translates into the highest quality of care for all of our patients.

At Hanger Clinic, you are the leader of your clinical team. You share your goals with us, and we will strive to get you there.

For us, Hanger Clinic means a new name, a new look and a renewed nationwide commitment to unparalleled service. For the more than 1,000,000 + patients we serve each year, Hanger Clinic means new possibilities and a renewed sense of hope.
BRACING AND SUPPORT SOLUTIONS

Customized devices and service mean independence for our patients.

As the largest provider of orthotic services in the nation, patients come to us with a full spectrum of gait and musculoskeletal conditions caused by illness, injury or congenital conditions.

By listening to your needs, wants and concerns, the clinicians at Hanger Clinic get to know the whole you, gaining a better perspective on how best to increase your mobility and comfort, while decreasing rehabilitation time.

The knowledgeable clinicians at Hanger Clinic create an extensive range of innovative, personalized solutions for each of you including state-of-the-art braces, supports, shoes, inserts and other devices.

Your biggest challenge becomes our greatest inspiration for innovation and improvement in orthotic technology. Mobility, function, freedom, and independence are paramount—and they can be yours at Hanger Clinic.
LIMB LOSS SOLUTIONS

Replacing limbs. Rebuilding strength, power and spirit.

Patients who come to Hanger Clinic seeking prosthetic services will find a full spectrum of leading-edge technology and clinical techniques, unparalleled in the industry.

With the largest and most respected prosthetics program nationwide, the clinicians of Hanger Clinic treat thousands of patients each year who have lower and/or upper extremity needs, some of whom require highly complex fittings.

We begin our relationships as early as possible, often at the hospital bedside, and maintain open communication to build lifelong, trusting partnerships with our patients and their families. Helping you achieve your personal goals and regain your independence is our primary aim.

Beyond clinical care, Hanger Clinic created and supports AMPOWER™, a remarkable peer-to-peer program and online community, established to provide support and encouragement for those with limb deficiency and limb loss. Learn more at: HangerClinic.com/AMPOWER
We treat our pediatric patients like children; not like mini-adults.

At Hanger Clinic, we understand the special physical, emotional, and social needs of our youngest patients. We also appreciate the importance of family in the child’s life and therefore, include parents, siblings, and other key family members in our care program. By teaming together with pediatricians, occupational and physical therapists, and other care providers, we can bring about the best possible outcomes for your child.

Our skilled pediatric clinicians treat children with mobility and musculoskeletal conditions, from prosthetic requirements to cranial reshaping needs. Special care is taken to ensure that your child feels comfortable and safe and that all of your questions and concerns are addressed.

We will closely monitor your child’s progress and growth, incorporating age-appropriate accommodations and applying new, innovative technologies over time to further benefit your child.

Hanger Clinic pediatric specialists want a world without limits for your child, just as you do.
