

PROSTHETIC SYMPOSIUM: SUCCESSFUL REHABILITATION OF THE LOWER LIMB AMPUTEE

Continuing Education Contact Hours: 3.0

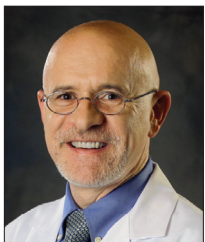

Calling all PTs, PTAs, OT, OTAs, nurses and other health care professionals who work with or care for prosthetic patients. Join us for this educational event sure to leave you with the knowledge and resources to better care for your patients.

PROGRAM SESSIONS

Join us for a three hour introductory presentation, including a live lecture and interactive session. Work directly with patients and see technologies, such as microprocessor components and imaging.

- Hands-on demonstrations with prosthetic patient models
- An opportunity to work with the latest prosthetic technology
- Discussion and review of microprocessor prostheses
- Medicare guidelines
- Socket fit and assessment
- Patient evaluation techniques

FEATURED SPEAKER

Kevin Carroll, MS, CP, FAAOP/D

Kevin is an accomplished healthcare professional with more than 35 years of experience as a practicing prosthetist, visionary researcher, and skilled educator. As Vice President of Prosthetics for Hanger Clinic, Carroll travels nationally and internationally presenting scientific symposiums and managing clinics for difficult prosthetic cases, and his commitment to improving prosthetics has placed him at the forefront of numerous prosthetic breakthroughs.
