NASHVILLE, TN
FEB 4-5, 2020

Gaylord Opryland Resort & Convention Center
2800 Opryland Drive, Nashville, TN 37214
Join us in Nashville for two days of collaborative-based education, networking opportunities, pioneering research, and a chance to celebrate the patients we serve every day, together. Therapy professionals and others on the healthcare team who treat orthotic and prosthetic patients are invited to attend.

OFFERINGS FOR 2020 INCLUDE:

Opening Ceremony
A once-in-a-lifetime opportunity that highlights and celebrates patients and their care teams from around the country, LIVE on the big stage.

Keynote Sessions to Awe and Inspire
Thought leaders from around the country will give attendees insight into the current research, patient care, and technology in the field of O&P.

Collaborative Education
A variety of education courses to improve outcomes for adult and pediatric patients.

We look forward to learning alongside you, our partners in care.
### Meeting Hours

**Attendee Registration Hours**
- **Monday, February 3**: 9:00 am - 10:00 pm
- **Tuesday, February 4**: 6:30 am - 10:00 pm
- **Wednesday, February 5**: 7:00 am - 6:00 pm

**Opening Ceremony**
- **Tuesday, February 4**: 6:00 pm - 8:30 pm

### Exhibit Hall Hours
- **Tuesday, February 4**: 6:00 pm - 8:30 pm
- **Wednesday, February 5**: 7:00 am - 4:00 pm
Contact Hours Per Day

Visit HangerClinic.com/CE for more information on our accreditation status.

Physical Therapists Statement

This activity is offered by the Texas Board of Physical Therapy Examiners Accredited Provider 2009029TX. As we receive approval from other state boards, we will update this document.

Occupational Therapists Statement

Hanger Clinic is an AOTA approved provider of occupational therapy continuing education. The assignment of AOTA CEUs does not imply endorsement of specific courses, products, or clinical procedures by AOTA.

2020 Meeting Objectives

At the conclusion of the 2020 Hanger LIVE meeting, participants should be able to:

- Identify technologies that have had an impact on O&P healthcare clinically
- Indicate an understanding of new amputation surgical concepts and techniques
- Incorporate interdisciplinary approaches that foster a collaborative care environment that will improve patient outcomes
- Introduce into practice, therapy and peer mentoring concepts that will improve outcomes for patients with upper and lower limb loss
- Apply new skills to patient management for various pediatric patient populations
- Describe pain management techniques for adult spinal patients
Tuesday, February 4

Empowered Start

6:00 am - 7:00 am  Yoga  
Run/Walk

6:30 am - 8:00 am  Breakfast

Keynote Sessions

8:00 am - 8:10 am  Welcome and Introduction  
James H. Campbell, PhD, Hanger

8:10 am - 8:35 am  Trends in Developing O&P Technologies  
Michael Goldfarb, PhD, Vanderbilt

8:35 am - 8:55 am  Using Technology to Increase Activity Levels  
Phil Stevens, MEd, CPO/FAAOP, Hanger Clinic

8:55 am - 9:15 am  New Insights Following Vascular Amputation  
Shane R. Wurdeman, PhD, Hanger Clinic

9:15 am - 9:40 am  The Most Important Thing We Give to People is Hope —  
Overcoming Stigma in Diabetes and Obesity  
Virginia Valentine, APRN, BC-ADM, CDE, FAADE,  
Clinica La Esperanza

9:40 am - 10:00 am  Questions and Answers

Concurrent Sessions

10:30 am - 11:15 am  P: The Future of Amputation Surgery  
Paul S. Cederna, MD, University of Michigan

10:30 am - 11:00 am  O: Advancements in Foot/Ankle Surgical Techniques and Care  
Jeffrey Herring, MD, Saint Thomas Midtown Hospital

11:15 am - 12:00 pm  P: The Future of Human Machine Interfaces  
Dustin Tyler, PhD, Case Western Reserve

11:00 am - 11:30 am  O: Interventions and Surgical Decision-Making on  
CMT Patients  
Glen Pfeffer, MD, Cedar-Sinai

11:30 am - 12:00 pm  O: Theory and Science of Treating Adult Degenerative Scoliosis  
Andrew J. Mills, MBAPO, MISPO, Dip OTC, Spine Corporation Ltd U.K.

12:00 pm - 1:30 pm  Lunch
Tuesday, February 4

Concurrent Sessions (continued)

1:30 pm - 5:00 pm  **O&P Directed Case Models**

The Directed Case Models Series is designed to provide a platform to share unique and challenging cases with experienced O&P clinicians, PTs, and OTs. By incorporating Hanger Clinic's Clinical Practice Guidelines, the objective of this session is to improve the likelihood of optimal outcomes for the patients we serve. Learners are welcome to move throughout each location.

**Directed Case Models Presentation Categories:**
- Lower Extremity Prosthetics
- Upper Extremity Prosthetics
- Pediatric Orthotics
- Adult Orthotics
- Cranial Remolding Orthotics
- Scoliosis

Special Events

6:00 pm - 8:30 pm  **Opening Ceremony**

A once-in-a-lifetime opportunity that highlights and celebrates patients and their care teams from around the country, LIVE on the big stage.
Wednesday, February 5

6:00 am - 7:00 am  
Yoga
Run/Walk

7:00 am - 9:00 am  
Breakfast/Exhibit Time

Concurrent Sessions

9:00 am - 9:45 am  
P: Prosthetic Technology  
Kevin Carroll, CP, Hanger Clinic

9:00 am - 9:45 am  
PED: Normal and Pathmechanical Walking Utilizing Gait Lab  
Ed Wright, MD

9:00 am - 9:10 am  
P: What is Target Muscle Reinnervation (TMR)?  
Bambi Lombardi, OTR/L, Hanger Clinic

9:00 am - 10:00 am  
O: Management of CMT and Rehabilitation Principles  
Tim Estilow OTR/L, Team Leader, Children’s Hospital of Philadelphia

9:10 am - 9:30 am  
P: Anatomy Review for TOMR (Starfish, Forearm, TH and SD)  
Bambi Lombardi, OTR/L, Hanger Clinic

9:30 am - 10:20 am  
P: Prosthetist’s Perspective for TMR  
Brian Monroe, CP, Hanger Clinic

9:45 am - 10:30 am  
P: Clinical Application of Prosthetic Technology: Skin Issues, Bariatric and Patient Education  
Nancy Snyder, CPO, Hanger Clinic

9:45 am - 11:15 am  
PED: Pediatrics: Optimal Segment Kinematics & Alignment Approach to Rehabilitation  
Kristie Bjornson, PT, PhD, MS

10:00 am - 11:30 am  
O: Collaborative Orthotic Management in the Rehab Setting Expert Panel  
Moderator: Eric Weber, LCPO, FAAOP, Hanger Clinic

10:20 am - 11:30 am  
P: Therapist’s Perspective for TMR  
Bambi Lombardi, OTR/L, Hanger Clinic

10:30 am - 11:10 am  
P: Gait  
Ana Groff, CPO, Hanger Clinic

Current studies support that individuals with lower limb amputations perform at a higher level of prosthetic functional mobility for a longer period of time if they have appropriate, specific prosthetic rehabilitation under the care of an experienced Physical Therapist. This session is aimed at assisting physical therapists and physical therapist assistants to utilize existing Clinical Practice Guidelines to better understand Pre and Post Prosthetic therapy techniques in order to obtain improved clinical outcomes. This course will also provide instruction and hands-on experiences targeting relevant therapeutic techniques utilizing objective measures, musculoskeletal, and neurorehabilitation strategies for patients with lower limb amputations.

Wednesday, February 5

Concurrent Sessions (continued)

1:55 pm - 2:45 pm  O: Physical Therapy Advanced Lower Limb Orthotic Training
Tammy Ranney, PT, Trilogy Home Health

2:00 pm - 2:45 pm  PED: Algorithm for Assessment of Ankle Foot Orthoses for ITW
Gwen Ansier, CO, Hanger Clinic

2:15 pm - 2:45 pm  P: The Use of Orfit in Pre-Prosthetic Intervention
Bambi Lombardi, OTR/L, Hanger Clinic

2:15 pm - 2:45 pm  P: Treatment of Pain Following Amputation
Corey Hunter, MD, Mount Sinai Hospital / Ainsworth Institute of Pain Management

3:15 pm - 3:45 pm  P: Pain Management for Amputees
Ray Lunasin, PT, DPT, OCS, CSCS, Mayo Clinic

3:15 pm - 4:00 pm  PED: Non-Surgical Approaches to Neuromuscular Pathology
Ed Wright, MD

3:15 pm - 4:00 pm  P: Partial Hand Component Update and Therapy Intervention
Joyce Tyler, OTR/L, CHT, Guest Speaker
AJ Westford, CPO, Hanger Clinic

3:15 pm - 4:30 pm  O: Biomechanics of Lower Limb Bracing for Adults and Communicating Goals
Shalyn Latorre, CPO, Hanger Clinic and Adrianne Parker, CO, Hanger Clinic

3:45 pm - 4:15 pm  P: Peer Mentoring and Working with Support Groups
Shanna Lunasin, Founder, Childhood Cancer Community

4:00 pm - 4:30 pm  PED: Exoskeletal Robotic Walker for Children with Cerebral Palsy and Movement Disorders
Kristie Bjornson, PT, PhD, MS

4:00 pm - 5:00 pm  P: Overuse Syndrome and Upper Limb Patients
Bambi Lombardi, OTR/L, Hanger Clinic

4:15 pm - 4:45 pm  P: Working with Workers Comp Patients
Dave Anderson, Orchid Medical
