

PROSTHETIC SYMPOSIUM: SUCCESSFUL REHABILITATION OF THE UPPER LIMB AMPUTEE

Continuing Education Contact Hours: 3.0

Calling all PTs, PTAs, OTs, OTAs, and other healthcare professionals who work with or care for patients with limb loss. Join us for this educational event sure to leave you with the knowledge and resources to better care for your patients.

COURSE SUMMARY

This three-hour presentation highlights prosthetic options and the key components of preprosthetic and postprosthetic management of the upper limb amputee. Participants will be guided through a prosthetic training protocol. Topics covered include prosthetic options, edema control, desensitization, mirror therapy, myosite testing and training, repositioning/proportional control of the terminal device, and bimanual skills training. The partnership between the therapist and prosthetist will be highlighted as this is critical in providing a person with the most functional prosthesis. Live demonstration by patient model.

COURSE INSTRUCTOR

**Amy Todd, MS,
OTR/L, CHT**
Clinical Therapy Specialist
Upper Limb Prosthetic Program
